Christmas Edition**
—THE EDITOR, THE SUN.

How Fashions Change!

A few short years ago
Stony's streets were illumined
by good lights on Saturday
evenings up to about 11 p.m.,
when they were extinguished.
Now the streets are in darkness
on Saturday evenings up
to about 11 o'clock, when the
lights are turned on, and
shine in all their brilliant and
dazzling effulgence thru the
midnight hours; yea, even till
the sun's early rays, tint the
Eastern sky!

WANTED—A girl for afternoon.
Apply P.O. box 156, or phone 1.
Stony Plain. 85

FARM FOR SALE, SE 12 Tp 53
R 1-w5, 160 acres, 8-room house,
barn 28x48, and other buildings;
AND SW 12 Tp 53 Rg 28-w4th;
75 acres, all under cultivation, and
house, granary and barn; will sell
all as one lot. Price on application
to Nick Bauer, Meridian Road, one
mile north of Baseline. 8284

FOR SALE, Tamworth Boars and
Sows, about 15 months old; reg-
istered R & W. Albrecht, 3 miles
west and 2 miles north of Stony
Plain. 3182

FOR SALE, Purebred Hereford
Bull, 5 years old on Feb. 2, 1928,
weight 1 ton, papers with him;
will trade for purebred Shorthorn
bull or calf. Peter Miller, Duffield,
Phone R1508. 83

If You Intend to Build, See
KARL STRASS,
Contractor and Builder.

Mr Thos Graden Sr., who
had his left hand severely
burned in a gas explosion, is
making good progress toward
recovery; but it will be some
time before he will have the
full use of the hand.

Miss Mary Gamble, teacher
at Fallher, Peace River, is
spending the holidays with
her parents, north of town.

The students from this dis-
trict who have been attending
Camrose Normal arrived home
last night, for the holidays.

Write your letters to Santa
Claus, care of Hardwick's.

Butcher Horn has acquired
a new car in exchange for his
old Chevrolet which has been
traveling the roads for the
past ten years and is still
going strong.

Christmas cards and Per-
sonal Greeting cards; all price
and colors; at the Drug Store.

The Oldtime dance given in
Wudel's hall Friday last was
fairly well patronised. The
music was played by a par-
ticularly good three-piece or-
chestra.

Send your letters to Santa
Claus to the post box at Hard-
wick's Store.

Mr Nick Bauer, the well-
known farmer north of town,
has his farm property on the
market for sale. This is a very
desirable layout, with the land
lying on either side of the
Meridian road, a short dis-
tance from the Baseline. Mr
Bauer, who is getting on in
years, intends retiring from
farm life and will take up his
residence in Stony Plain.

A big hockey game is prom-
ised for Monday afternoon
next, on local ice.

If your eyes bother you, or
you suffer from headaches,
why not have your eyes at-
tended to by an expert? M M
Mecklenburg, eye specialist,
will be in Stony Plain on Fri-
day, Jan. 6th.

The Record Breaker

A notable example of the
disadvantage of buying away
from home, articles which
may be obtained in your own
town, is to hand. The other
week a gramophone owner
from Stony Plain district mot-
ored to the City, purchased
two records for his machine,
and placed these in the rear
seat of his car. On the return
trip, while passing thru Win-
terburn, a gent called Mr
Philip stepped out on the
trail, waved his arms, stopped
the car, and asked for a ride
to the Grove. He was invited
into the car. Up to this time
Old Phil had been known to
break quite a few records, so
he broke a couple more when
he sat on the two wrapped in
paper lying on the rear seat!
So doth the kind-hearted mo-
torist get his reward for giv-
ing a hop-hiker a lift in his
car!

Canada, the Land of Opportunity

As the year of Canada's Diamond Jubilee draws to a close it is gratifying and inspiring to recall the widespread interest which everything pertaining to Canada now arouses throughout the world, and more particularly in the Empire and the United States. Never before in its history did the Dominion receive more or better publicity than it has enjoyed this year. People in other lands are beginning to get a true conception of Canada and its great possibilities, and possibly nothing is better calculated to spread such knowledge in influential British circles than the decision of The Financial Times, London, having the largest circulation of any financial journal in the world, to issue semi-annual 40-page supplements on Canada during the next three years.

In an editorial introduction to the first of these supplements The Financial Times recalling Sir Wilfrid Laurier's statement: "The nineteenth century was the century of the United States, the twentieth century will be Canada's century," declares that Sir Wilfrid was no mere visionary, as events have proved. It adds: "Unquestionably the nineteenth century was the century of the United States, for America's growth in population, enterprise and wealth were without parallel in the world's history. But the past of Canada's progress in the twentieth century were never equaled in any equivalent period of America's nineteenth century expansion. In the past two decades Canada's expansion in all material respects has been prodigious." Supporting this statement, the managing editor, in a signed article, makes the following bald recital of facts setting forth this story of "amazing progress":

In the twenty years' period (1906-1926), there was a 50 per cent. increase in the population, which is now estimated at 9,396,000. At that rate of progression the end of this century should see Canada with a population at least equal to that of Great Britain now.

The value of Canada's field crops saw nearly a fourfold increase in the twenty years' period to \$1,131,341,106. More land was taken up as farms in that period than in the three centuries preceding. Yet scarcely half of the possible farm land in the Dominion is yet occupied.

There was more than a fourfold increase in the total trade of the Dominion to \$2,256,629,000. The United States had a population of 75,000,000 before its foreign trade was equal to that of Canada today.

The value of Canada's manufactures was about trebled to \$2,948,600,000. So was the total capital invested in manufacturing industries, which, at the end of 1926, amounted to \$2,771,000,000.

The value of the mineral output showed a 250 per cent. increase, and the ratio of value per capita of population rose from \$12.31 to \$25.69.

Thanks largely to the rapid development of the pulp and paper industry, there was more than a tenfold increase in the export of forestry products.

There was a 50 per cent. increase in the marketed yield of the fisheries. The value of furs exported showed a tenfold increase to \$17,017,200. Yet the limit of settlement has been reached there will remain hundreds of thousands of square miles for profitable exploitation by fur traders.

Steam railway mileage rose from 1,353 to 40,352; no other country in the world exceeds Canada in railway mileage, proportionate to population.

Electric railway mileage rose from 811 to 2,500. There are now 63 electric railway companies in operation, with an aggregate capitalization of \$222,000,000.

The number of motor vehicles registered in Canada twenty years ago was under 2,000. In 1926 the number was over 500,000.

Nine times as much electrical energy was developed in 1926 as in 1905—the harnessing of power then being 500,000, against 4,500,000 now. Canada is second only to the United States in turbine h.p. installation, and second only to Norway in such installation per head of population. On a per capita basis the Dominion has nearly five times the installation of the United States.

Yet the harnessing of power of Canada is only about a tenth of her available resources. She has four times as many telephones per capita as Great Britain.

There were fewer than 1,000 bank branches in Canada in 1906; in 1926 there were 2,710. The assets of the Canadian chartered banks in 1906 were under \$800,000,000; in 1926 they were \$2,364,019,200.

The total life insurance in force with Dominion licensed companies in 1906 was under \$700,000,000; in 1926 the aggregate was \$4,609,502,200. The fire insurance aggregate rose from \$1,500,000,000 to \$8,015,737,100.

With the eclipse of Russia, Canada has become the second largest wheat producing and exporting country—second only for the time being to America. The Prairie Provinces alone produce wheat and other crops substantially exceeding in value that of the world's total annual output of gold.

Canadians may well find encouragement and inspiration in such a record of progress to go forward with confidence to the achievement of still greater things for their Dominion in the next twenty year period.

Silver in Canada

British Columbia is the Largest Producer of the Precious Metal

Following the discovery of rich silver deposits near Cobalt, Ontario, in 1905 the production of silver in Canada rapidly increased and since that date up to 1926 Ontario was the leading producer. Recent discovery in British Columbia restored that province in 1926 to the position of leading producer of silver in Canada, when the production exceeded that of Ontario by more than one million ounces. Canada's total production of silver in 1926 was 22,371,924 fine ounces.

Salt in Every Province

Salt, either in natural brines or in beds of rock-salt, is found in every province of Canada, although commercial production is confined to Ontario, Nova Scotia, and Alberta.

Plenty of people have a good aim in life, but a lot of them don't pull the trigger.

Frost Bites

Minard's will quicken circulation and prevent further trouble. Also cures the burning pain.

Doing Practical Work

Services of Red Cross Society at Ports of Entry is Invaluable

One of the inspiring bits of work carried on by the Canadian Red Cross is known in all its fullness only to those living in the seaport cities—Quebec, St. John and Halifax. At the nurseries in those three centres, weary women and children are welcomed, warmed, fed and cheered after their long ocean voyage and sent on their way rejoicing to their new homes. Sometimes the adventurer has come to meet a prospective husband, and to go with him to a home on the prairie. Lacking the appropriate bridal outfit, she finds herself embarrassed and the Red Cross volunteers come to her assistance, provide the things needed, and arrange the marriage.

One of the most appreciated services is the serving of tea to each woman when she arrives. Every cup is new brew, and in the months from February to October, at least 15,000 cups were given at the three ports.

Conspicuous among the seaport volunteer workers is Mrs. P. J. McManus, Convent of the Red Cross Society, Nurses Committee at St. John, who is at present in Toronto for the semi-annual meeting of the Central Council, Canadian Red Cross.

At Halifax, from February to October, 165 ships landed, and 6,529 women, 4,549 children and 278 infants received medical care of some sort. At St. John, 2,090 women, 3,738 children, and 238 infants were welcomed, and at Quebec 6,169 women, 9,741 children, and 907 infants. Five hundred and thirteen medical treatments were given.

Paint a Corn With This Marvel Liquid

The pain stops in a few seconds. Tight shoes won't hurt any more. The corn shrivels up, and drops off. Removes the whole corn and doesn't pain a bit. It's the sure remedy—Putnam's Corn Extractor. All druggists sell Putnam's Corn Extractor. Get your bottle today. Refuse a substitute for Putnam's.

Australia's Cattle King

Began Career As Teamster Now Owns Thirty Ranches

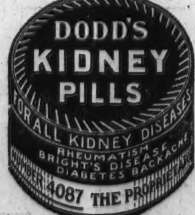

A man who owns so many horses that he has recently purchased 1,000, and then because he couldn't sell them, and they cost too much to keep, is, at seventy years of age, visiting London. He is Sir Sydney Kidman, the veteran Cattle King of Australia. He began his career as a teamster at 10s a week. Now he owns thirty ranches covering more than thirty million acres of land; more than 100,000 cattle and 10,000 horses; 1,500 camels and thousands of donkeys and sheep.

CONSTIPATED CHILDREN

Constipation is one of the most common ailments of childhood and the child suffering from it positively cannot thrive. To keep the little one well the bowels must be kept regular and the stomach sweet. To do this nothing can equal Baby's Own Tablets. They are a mild but thorough laxative; are pleasant to take and can be given to the newborn babe with perfect safety. Thousands of mothers use no other medicine for their little ones but Baby's Own Tablets. They are sold by apothecaries or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville Ont.

Preserving Big Game

Mount McKinley National Park has saved big game in Alaska, Caribou, sheep, moose, and deer, seen to have learned that the park is an absolute game sanctuary and it is a safe breeding ground. Those that range out of the limits may be killed by hunters, who report an excellent year, with good quality of fur.

Bank of Montreal Annual Meeting

The annual meeting of the Bank of Montreal brought to a close a year in which the Bank had enjoyed almost record growth.

Sir Vincent Meredith, President, and Sir Frederick Williams-Taylor, General Manager, in their addresses, stressed the rapid stride that Canada was making but struck a warning note against over speculation.

Sir Vincent Meredith in his address, said in part: Trade conditions in Canada during the year have been active, and while there is still keen competition in many lines, balance sheets generally show satisfactory profits. Manifold evidence, bank clearings, bank deposits, car loadings, railway gross earnings, imports, note circulation and lower mortgage mortality all reveal that the vitality of business has risen during the year.

Speaking generally, manufacturing industries drive; the textile mills are fully employed; iron and steel operators continue to face strong competition from abroad, as an increasing volume of imports attests; the lumber trade shows a slight improvement; newspaper output increases; production of footwear is larger and the industry is in better state; the manufacture of motor cars has almost disappeared, but in the first nine months of the year 161,583 cars were turned out, having a value of \$105,175,000, or practically the same as in the like period of last year, though the number of cars was 700 less.

I see no reason why an abatement of competition is the condition of these prosperous conditions need be apprehended.

Sir Frederick Williams-Taylor, in addressing the shareholders, said in part:

In two fundamental respects, earning power and liquid straits of resources, our position continues highly satisfactory. Nevertheless we have been better prepared to care for all the normal needs of the public and to meet any business or financial emergency.

I have referred to the past year as the most expansive in the country's commercial history. That Canadians have experienced a greater degree of individual prosperity than ever before in my mind, I think, undisputed. The high general level of employment, and the enhanced spending power of the people, are attributable to a succession of good harvests and to a great broadening of the basis of production. Until a few years ago Canada was best known abroad as an agricultural country, and outside capital sought investment here chiefly in government and municipal issues and in railway building to provide transportation for an ever-increasing agricultural area. To-day more of the financial and industrial capital coming in for investment is for industrial development. It is now fully recognized that Canada has the natural resources for the building up of a vast variety of indigenous industries, and the character, the energy, and spirit of her population to take an increasingly important place among the industrial nations of the world.

Urges Teaching of Astronomy

Goes Hand in Hand With Industry Says Dr. Ami

In an illustrated lecture by Dr. A. I. Ami, President of the Ottawa City Royal Astronomical Society of Canada recently advocated. Dr. Ami pointed to the need of the younger generation acquiring a knowledge of astronomy.

Dr. Ami lectured on the total eclipse of the sun as witnessed by him in England last June. He asserted that astronomy went hand in hand with industry, and for that reason young Canadians should have a sound foundation for their work in later years.

Dr. Ami said some inducement should be extended to Canadian scientists so they would not need to seek more remunerative positions abroad.

Part Played by Aviation

Great Strides Made in Flying During Past Seven Years

Aviation is playing a greater part each year in the exploration of the natural resources of the Dominion and in the conservation of these resources. Air transport is now recognized as one of the methods of solution of some of the most pressing problems of the Dominion. Surveyor, geologist and explorer in their work in the more remote parts of the country. In the past seven years, great strides have been made and flying now plays an important part in the work of many Government services.

Has Realized Ambition

Hairdresser in England Always Wanted To Be a Minister

Mr. F. W. Harvey, a hairdresser, of Walsley, Cheshire, has realized a lifelong ambition by being ordained a deacon and licensed to a curacy.

He has been in business as a hairdresser for twenty-five years. At the age of twenty he was approached with a view to entering the ministry, but his family resolutely prevented him, and it was not until three or four years ago that circumstances made it possible for him to set about achieving his aim.

Miller's Worm Powders will clear the stomach and bowels of worms, so that the child will no more be troubled by their ravages. The powders are sweet to the taste and the child will object to taking them. They are non-injurious in their composition, and while in some cases they may cause vomiting, that must not be taken as a sign that they are nauseating, but as an indication of their effective work.

Changes Hue After Sunset

It is theoretically impossible for hyacinths to produce blue in a flower which is naturally yellow and red, but A. S. Babbe lately exhibited at Horticultural Hall, London a dahlia that was "a blue-mauve that turned deep blue after sunset."

Minard's Liniment for Neuralgia

A mother seal can place her puppy by a hole on a cake of ice and dive off on a food-hunting expedition, staying for hours, and can return directly to the cake though the ice may have drifted thirty or forty miles in the meantime.

That colds have immortal souls is a superstitious belief of the Eskimo fishermen.

Minard's Liniment for Gripe.

Make Aerial Survey Of The Immense Grazing Lands Known As Wood Buffalo Park

Great expanses of grazing lands, numerous hitherto unknown lakes, and stretches of heavily wooded country were revealed by aerial photographs taken during the past season from planes engaged in a survey of the southern half of Wood Buffalo Park near Fort Smith, Northwest Territories. The information made available by this aerial survey will prove of importance in studying the capability of this great range to provide feed, water, and shelter for the future development of the buffalo herds which now roam its expanse of 17,200 square miles. Owing to unfavorable flying conditions the entire reserve could not be photographed and only the southern portion was surveyed this year.

The Wood Buffalo Park, which lies on each side of the boundary line between the Northwest Territories and the province of Alberta is administered by the North West Territories and Yukon Branch of the Department of the Interior, and at the request of this branch, the survey work was undertaken by the Topographical Survey of the same Department in co-operation with the Royal Canadian Air Force of the Department of National Defence. The greatest dimensions of the park are approximately 175 miles north and south and 150 miles east and west.

The nearest post is Fort Smith, N.W.T., just north of the territorial provincial boundary. In the area occupied by the park the last remaining herds of wild wood buffalo were discovered many years ago and these are now estimated to have increased to about 1,000 animals. Since 1925 this area has been brought the overflow from the herd in Buffalo National Park, Wainwright—nearly 6,000 more—so that the total number, making allowance for natural increase, is now in the vicinity of 8,000.

The aerial survey of Wood Buffalo Park when completed, will be one of the largest yet undertaken and is the farthest North survey of its kind on this continent. The season's operations were carried out with two Viking seaplanes, each carrying a pilot, a photographer, and a surveyor-navigator. The home base of the planes was at Ladder Lake, Saskatchewan, and they were flown to the local base at Chipewyan at the West end of Lake Athabasca, a distance according to the water route followed of roundly 500 miles. The West end of Lake Athabasca forms part of the Eastern boundary of the park so that Chipewyan is situated virtually on the edge of the reserve.

Previous to the survey the great stretch of country lying between the Peace River and Great Slave Lake, West of Slave Lake, which includes the major portion of the park, had to a large extent remained terra incognita. This was due to the fact that it is almost lacking in navigable rivers and much of it is timbered plain of little relief in which the ground observer can seldom get an extensive view. Only a few old Indian trails give access to the interior.

From an aeroplane at a height of 5,000 feet the country spreads out to a horizon sixty miles away with clear detail. The cameras have accurately recorded all the water areas. The fall and winter range of the buffalo stands out clearly; the heavily wooded rolling country and the spring and summer feeding grounds are also recognizable on the photographic prints. A third class of country in which the swampy areas shade to the highlands is also shown. This country is nearly flat with low islands and on it drainage is poor and moss accumulates. Although such land does not furnish much pasturage it serves the useful purposes of conserving the water supply and forming a natural safeguard.

The examination of the photographs of the southern half of the park covered by the work of the past season reveals a great many previously unknown lakes, relieving any apprehension of water shortage. Valuable data on the situation as to pasturage and the local location may also be obtained to assist in the administration and development of the park.

Photographs taken at 5,000 feet are on too small a scale to show animals

but the officers in charge of the ground control operations reported that they saw a number of buffalo which were in good condition and evidently thriving. This confirms the reports received from wardens by the North West Territories and Yukon Branch, which is in charge of the park, to the effect that the different herds and ship meals were getting along peacefully together and that all were thriving.

Romance Of Early Trading

Days When Records Were Written and Kept On Buckskin
Romance of the early trading posts of Northern Quebec is entwined in a claim advanced by Mrs. Jane Peever, 87, of Burnaby, for one third of a fortune in chancery said to amount to nearly \$200,000,000.

The days when important records were kept in the wilds by writing on dressed buckskin are recalled by her statement that James Hudson, believed to have died intestate, actually left a buckskin will bequeathing his estate to his family.

This will written on a strip of buckskin 24 inches broad, was in the possession of Samuel Frost at Fort Coulongue, Que., 40 years ago, according to a statement by William Osborne Peever, 56, Vancouver, who declares he read it.

Wood Buffalo Are Thriving

The wood buffalo in their natural habitat in Wood Buffalo Park near Fort Smith, N.W.T., continue to thrive and multiply. The buffalo in the southern range within Alberta are intermingling with those of the plains shipped during successive seasons since 1925 from Wainwright Park, Alberta.

There are 1,210 flour mills in Canada with an annual output of over 17,770,000 barrels, of which about 10,500,000 barrels are exported.

SUNFLOWER SILAGE

Has Steadily Increased In Favor In The Prairie Provinces

There is little doubt now, that sunflowers are a fairly satisfactory and acceptable silage crop for districts in which seasonal conditions do not meet the requirement for good results with corn. In regions where the summer is cool the yield of corn is generally low, and where late spring and early autumn frosts are frequent the crop suffers considerable damage. In such districts sunflowers are generally a dependable crop. They also stand drought better than do corn or other silage crops. During recent years the acreage sown to sunflowers as a silage crop has steadily increased, particularly in the prairie provinces. Considerable data on the palatability and nutritive value of this silage has been collected by the Chemistry Division of the Dominion Experimental Farms and detailed in a bulletin on "Silage," distributed by the Publications Branch of the Department of Agriculture, Ottawa.

In regions where corn gives a satisfactory crop every year there is nothing to be gained by changing to sunflowers but in the colder climates of flowers; but in the colder climates of Northern Ontario, and in the larger part of Quebec sunflowers are a more dependable crop than corn and make an excellent substitute. In nutritional value and palatability sunflower silage ranks high and its feeding value for milk production is very satisfactory.

In this connection it is interesting to note a series of feeding experiments with sunflower silage conducted at the Experimental Station at Kapuskasing in Northern Ontario, where fodder corn does not succeed. Sunflower silage in these experiments proved distinctly superior to oats peas and vetch silage for wintering both beef cattle and lambs.

It should be remembered that where there is no silo on a farm sunflowers cannot be grown to replace corn, as the latter crop may be fed as dry fodder a use to which sunflowers cannot be put.

Many an author's heaviest literary work consists of an effort to sell what he has written.

History Clearly Shows How Much America Is Indebted To England For High Ideals

Major Thompson of Chicago suffers from acute Anglophobia. His threatened auto-da-fé of histories with an alleged British bias has provoked laughter on both sides of the Atlantic ocean. And yet Anglophobia must be popular in Chicago, or William Hale Thompson would not be its mayor. But however much he and his sympathizers may hate England, the frosty fact is that the United States owes its independence, its Constitution, its courts, its literature and language to England. Long before the Revolution the British Crown granted charters to colonists in America, so wise and just, that they became, with little change, the constitutions of Connecticut and sister commonwealths. All the fathers of the republic were of British stock—Washington, Adams, Jefferson, Hamilton, Franklin and Marshall. Of the same sturdy fibre was Benjamin Thompson, afterward Count Rumford, a physicist of supreme rank and vision.

John Harvard, an Englishman, founded the college which is today the acknowledged leader of American universities. Its most distinguished president was Charles William Eliot, whose forty years of service came to a close in 1909. As he strolled across the campus he was as English in build and feature, in pose and dignity, as if this were his first morning in America. His native New England renates to this day true to the best traditions of her English forbears. In education, in letters, in fine art, in scientific research, she still bears the unchallenged primacy on this continent. Her technical schools, her studios of painting and sculpture, of music and the drama, her public libraries, serve as models when new foundations rise beyond her borders. The Atlantic Monthly, Webster's Dictionary, and the works of Francis Parkman are not published in either Chicago or New York.

As in literature, so, too, in the

sphere of organized religion. Among American churches the largest carries the banner of John Wesley. Next comes the church of John Bunyan. The Church of England in America, with a total not so large on its register, nevertheless wields a social acceptive not shared by any of her countrymen. In colonial days the corporation of Trinity Church was established in New York. Its endowment in real estate has become of enormous value. Trinity church, early in its history, took part in founding King's College, now Columbia University, with more students than any other university in the world. To this day Columbia receives a goodly subsidy from the coffers of Trinity.

Visitors to Washington usually include the Smithsonian Institution in their itinerary. Its founder, James Smithson, was an Englishman, who left a fortune of about \$500,000 "for the increase and diffusion of knowledge among men." From his bequest has sprung the National Museum, in all likelihood to become the central home of industrial museums in New York, Philadelphia, Chicago and other leading cities of the Union.

However distasteful it may be to Mayor Thompson and his friends, the relations between England and her daughter nation, the United States, were never more cordial and friendly than today. In a golden treasury of good will, a little sundried brass from Chicago intrudes itself. But never in American hearts was the net balance at the credit of the Mother Land greater than at this hour. This happy result is due, in part, to the Great War, when men in khaki north and south of the Canadian frontier joined hands to defeat the foe of mankind.

A Modish New Coat

Extremely smart is the coat shown here for the Junior miss. The two-piece sleeves are finished with shaped cuffs, and there are useful patch pockets and a long shawl collar. No. 1693 is in sizes 8, 10, 12 and 14 years. Size 10 years requires 2½ yards 35-inch, or 1¾ yards 64-inch material, and the same amount of lining. Price 20 cents the pattern.

Every woman's desire is to achieve that smart, different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are originated in the heart of the style centres, and will help you to acquire that much-desired air of individuality. Price of the book, 10 cents the copy.

Dreams and weather predictions usually go by contraries.

(1) Standard 56 lb. Box of Apples.
(2) Typical Canadian Pacific Refrigeration Storage Steamer.

Say It With Canadian Apples

This is the slogan of the Canadian Pacific Express Company for Christmas and New Year, and at the same time a patriotic appeal to Canadians to advertise the Dominion in the countries overseas. "It will be agreed that there is hardly a better way to do it than by means of this distinctive Canadian fruit whose flesh, scent, sight, and taste satisfy so amply four of the five senses of the average man, woman and child. You can have what

sort you prefer though many people would have their wares fully met with a standard box of Macintosh. Rehearsal as is shown in above illustration. Wherever you live, what you have to do is easy. Order from your grocer a standard box of apples weighing 50 lbs. and containing about 150 apples. Then get in touch with the Canadian Pacific Express Company, tell them you want to send it to such-and-such an address in England, Scotland, Ire-

land, France, or where you will, and they will do the rest. The fruit is guaranteed by Canadian Government certificate and it is carried overseas in refrigeration storage by Canadian Pacific steamships. As to the cost, well to Great Britain it will cost you a good deal less than the apples themselves. And you will have sent friend or relative one of the most attractive presents it can be the luck of man to receive at Christmas or New Year.

In confirming the establishment of a Canadian Institute of International Affairs Sir Arthur Currie announced that Sir Robert Borden, former premier of Canada had accepted the chairmanship of the council.

Claims New Device Neutralizes Gravity

Radio Engineer Of New Jersey Is Inventor

The invention of a machine by which the force of gravity is neutralized is announced by Benjamin Johnson, a radio engineer, who claimed that if the machine can be developed to a commercial stage air flight from New York to Paris can be achieved in five or six hours.

At his laboratory in Newark, N.J., Johnson said he had actually suspended a miniature plane in the air by neutralizing gravity and also that he could suspend a fifty pound weight in the air.

Fewer Travelling Men

There has been little notice of the pausing of the travelling salesman. Comparatively there are few left. The owner of a wholesale drug house, who employed some forty, now has four. Yet his business has grown yearly. Business once secured by these appliances of good fellowship is now accomplished by air mail, telephone and telegraph.

Water-Power Sites in Canada

The developed and undeveloped water-power sites of the Dominion of Canada are estimated to have a capacity of 20,197,000 horse-power under conditions of ordinary minimum flow, or 35,113,299 horse-power dependable at least six months of the year.

Prairie Swine Herds Increase

During the five years between 1921 and 1925 the number of swine on farms in the Prairie Provinces of Canada increased by 647,244 according to the Dominion Bureau of Statistics. The figures for the two census years follow: 1921, 1,365,245; 1926, 1,602,489.

W. N. U. 3712

Old Fashioned Christmas

Merry Christmas Is As Merry As Ever and Its Spirit, Is As True and Earnest

Good old-fashioned Christmas cheer, so loudly mourned for in these modern days, is a myth. The new fashioned Christmas is far better, declares the Woman's Home Companion in its December number. "Much has been added and nothing has been taken away unless by our own blindness or folly," it continues.

"Sleigh-bells and Yule log, the far, slow pilgrimage over drift-piled roads to the home of childhood, the glowing board lined with beaming faces, voices lifted in familiar hymns—the old-fashioned Christmas.

"Fast motor cars, rows of city houses heated by oil, families' gathered over a dinner tables sending quick greetings by wire; a few gathered about a smartly decorated table, the loud speaker filling the room with music from a distant orchestra—the new fashioned Christmas.

"It is easy to draw a cynical contrast. But it is harsh and false as is the way with cynicism and offends our inner knowledge that all is still well in the hearts of the people. Merry Christmas is merrier than ever and its spirit is as true and earnest.

"Children still scream for very joy over the tiniest gifts. The fests of old unwarp parcels with ardent undimmed by the years. Funny little springs of mischievous little beckon about the doorway. From every window wreaths smile at passers-by. The highways even into the country and hamlets are swept. If there has been a fall of snow, and are open to the eager traffic that brings people to the goings. And, for all the bustle of it, men and women pause to think and speak reverently of the Christ-child.

"Never was the world so wide for happiness, never so deep for the current of friendliness. Never so many men of good will, never so ardent a desire for peace on earth, never so many things to make Christmas merry."

WORLD'S RECORD

R. D. Pink, for 60 years a train dispatcher and telegraph operator, retired from the service of the Canadian National Railways on November 30. Mr. Pink's service is longer than that of any telegrapher in the world. At the time of his retirement he was in the employ of the company in Winnipeg.

Radio Developed Twenty Years Ago

First Broadcast Was Made On December 25, 1926

Radio almost reached its present development 20 years ago. Reginald A. Fessenden, inventor, testified in Boston at the federal trade commission hearing of charges that the General Electric Company, the American Telephone and Telegraph Company and other concerns had combined to control radio and establish a monopoly.

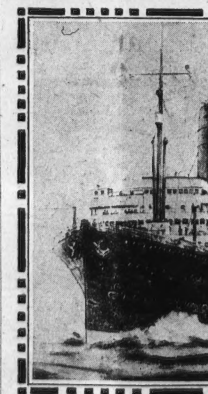

He said the first radio broadcast was made December 21, 1906, when the message "Peace on earth, good will to men" was put on the air at Marconi's vineyard.

Heard Things Shrink

The man that wrapped his talent in the napkin, and said, "Lo, there thou hast that is thine," was too sanguine. There was never unusual talent rolled up in a handkerchief yet, but when it was taken out and put into the scales, it was lighter than when it was committed to the keeping of the earth.

B.C. Tobacco For Britain

The first shipment to Great Britain of tobacco grown in British Columbia has been sent forward by W. F. Bremner, who is in charge of the provincial crop. There is a report current that Ontario interests are to build a curing plant at Vancouver to look after the export trade.

Huge Liner For C. P. R. Launched

With the launching of the new 20,000-ton passenger liner the "Duchess of Athol" on the Clyde recently, ships with a total of 72,000 tons have been launched for Canadian Pacific service during the months of October and November. This is believed to be a record for a private company.

The "Duchess of Athol" is the first of four "Duchess class" steamers for trans-Atlantic service being constructed for the Canadian Pacific Steamships. Her Grace the Duchess of Athol was the central figure at the launching and christening of this

SUNDAY SCHOOL LESSON

DECEMBER 25

CHRISTMAS LESSON

Golden Text: "Thou shalt call his name Jesus; for it is he that shall save his people from their sins."—Matthew 1:21.

Lesson: Luke 2:1-39.

Devotional Reading: Luke 2:3-20.

Explanations and Comments

I. The Birth of Jesus At Bethlehem, verses 1-7.—A decree of Caesar Augustus ordered the enrolment of every one in the Roman Empire. The people of Palestine were enrolled in "their own cities," and therefore Mary and Joseph left their home in Nazareth of Galilee for Bethlehem, which had been the home of their ancestor David. There Jesus was born, and Mary laid him in a manger, because there was no room for them in the inn.

"Though Christ a thousand times in Bethlehem be born.

If he's not born in thee, thy soul is all forlorn."

II. The shepherds and the Angels, verses 8-14.—God's revelations come to those who are ready for them. It was not to learned rabbis, but to humble shepherds at their accustomed toil that the wondrous news of the birth of the Christ came. They were watching their flock at night in the neighboring hills of Bethlehem, when an angel suddenly appeared to them and bade them fear not as he announced, "Behold, I bring you good tidings of great joy which shall be to all people."

For the four words "I bring good tidings" there is but one word in the Greek, evangelizomen, from which is derived our verb evangelize. And this was the glad tidings: "There is born to you this day in the city of David, a Saviour, who is Christ the Lord." Christ, in the Greek, as Messiah in the Hebrew, for anointed, the Anointed One. It was the title of Jesus as the One consecrated to be the Redeemer of the world. "He does not simply say, Christ is born, but to you He is born; neither does he say, I bring glad tidings, but to you I bring glad tidings of great joy. Further more, this joy was not to remain in them, but it was to be to all people."

Martin Luther.

Jesus Christ just begin to be the Saviour when the shadow of the cross fell upon Him at the end. The Saviour was born at Bethlehem. The hands of the Bethlehem Babe were infant hands, but they were the hands that would afterward be nailed to Calvary's cross. He was not born to make a holiday, but to save the world, and to save it at any cost. Our shallow, superficial, goodnatured Christmas festivity is far enough from what Bethlehem meant. Mary knew in part, the Wise Men knew in part, the angels knew in part. The heart of God knew altogether. Perhaps one of our highest services in modern life would be to redress Christmas for Jesus Christ and His real purpose in the world."—William F. McEwell.

Judge—"Have you anything to offer to the court before sentence is passed on you?"

Prisoner:—"No, Judge, I had ten dollars, but my lawyer took that."

DR. HAMILTON'S PILLS
CLEANSE THE SYSTEM

WEALTH OF H. B. AREA

Enormous Mining Development Will Follow Building Of Railway

The whole of Canada will benefit by the opening up of this Manitoba mining area, north of Hudson's Bay railway. This is the conviction of Cyril M. T. Young, F.R.G.S., Toronto, superintendent of development of the Canadian National Railways, who was the speaker at a joint meeting of the Board of Trade and the Young Men's Board of Trade at Winnipeg.

"The country north of the Hudson's Bay line," he declared, "especially along the height of land between the Nelson and the Churchill Rivers in the Sherritt-Gordon-Flin Flon section and northwesterly toward Churchill is going to give Canadians another surprise in mining."

This, Mr. Young said from his 25 years experience in mining, forestry and settlement and as a result of a personal examination of the resources of the territory.

One in the Manitoba properties was not as high a grade of copper, affording as large a net return, as that of Rouyn, Quebec, he stated, yet nearness to the Canadian National railway line, said Mr. Young, and that a second railway has been constructed and is now in operation into that camp.

Every province would have its share in the development of the new country, he asserted. It is reasonable to expect, he continued, that the coking coal used in the Flin Flon-Sherritt Gordon smelter will come from Alberta, because good coking coal exists on the coal slag branch south of Edmonton. The metallurgical process being adopted from Manitoba and the two sister prairie provinces to supply the towns and cities which will grow up hand in hand with the mining industry and with the allied cheap power and pulp and paper industries on the Nelson river. Mining equipment and electric power machinery will come from the manufacturing centres of Ontario and Quebec.

Recipes For This Week

(By Betty Barclay)

(By Betty Barclay)

CHRISTMAS FRUIT CAKE

- 1½ cups sifted prepared cake flour.
- 1 teaspoon baking powder.
- ½ teaspoon salt.
- ½ cup butter or other shortening.
- 1 cup sugar.
- ½ cup chopped almonds.
- ¼ cup grated coconut.
- ½ cup citron cut fine.
- ½ cup Sultana raisins.
- ½ teaspoon almond extract.
- ½ teaspoon vanilla.
- 5 egg whites, beaten stiff.

Sift cake flour once, measure, add baking powder and salt, and sift together three times. Sift ¼ cup of this flour mixture over nuts and fruits; mix thoroughly. Cream shortening until light and fluffy add sugar gradually and cream together thoroughly. Add remaining flour mixture slowly to creamed mixture. Beat after each addition until smooth. Add nuts, fruit, and flavorings. Fold in egg whites. Pour in loaf pan which has been prepared with a paper lining in the bottom. Bake in slow oven (250 degrees) 2½ to 3 hours. Remove from oven. Let larger cake double recipe and bake in tube pan two hours.

The doctor had two pretty children. One day a woman passing two small boys heard one say to the other:

"These pretty girls over there are the doctor's children."

"Yes, I know," said the other. "He keeps the best for himself."

The biggest man on earth began life in a small way.

LEVEL CROSSING ACCIDENTS TAKE TOLL OF DEATH

Ottawa.—The level crossing continues to take its toll of death.

Statistics compiled by the railway board show that in November out of 41 crossing accidents, automobiles were involved in 38, 1934. Most of the automobile accidents occurred at unprotected crossings.

Comparative figures for the whole year are not yet available, but in the last four months of this year the number of crossing accidents was 145 against 137 in the four months of 1934. Autos, in the 1934 period figured in 122 of the accidents, with 42 fatalities, the same as 1934.

W. J. Best, vice-president of the Brotherhood of Locomotive Firemen and Engineers, in a memorandum submitted to the Minister of Railways, says that within the past six years—1927 to 1934—49 persons have been killed and 1,347 injured at highway crossings.

Mr. Best suggests a number of things to combat the menace of present day automobile traffic on highways that cross railways on the level, chief of his measures being separation of grades. Paving complete separation by arched viaducts, or viaducts and further improvement of highways at approaches to railway crossings, which would force slower travel and elimination of some of the danger. He also suggests restriction of Federal Government aid to highway construction unless provincial and municipal governments guarantee adequate removal of the level crossing danger.

Mr. Best recommends a conference under the auspices of the railway board to determine a national plan of level crossing separation and protection, and that, if necessary, the Railway Act be amended.

Lindbergh Flies To Mexico

Successfully Negotiates Non-Stop Flight From Washington

Mexico City.—"Lindy" has done it again—he and the other half of the famous "Wee".

Without stop Col. Charles A. Lindbergh, piloting the Spirit of St. Louis which earlier in the year had carried him to Paris, flew from Washington to Mexico City. For more than 27 hours he was at the controls.

Perhaps there has never been witnessed such a delicious demonstration of joy by a Mexican until when, after some three hours of apprehension that misfortune had befallen the flier, the Spirit of St. Louis settled on Valbuena Military Aviation Field, two and a half miles from Mexico City. Lindy and his plane were safe and sound. Nothing was wrong except that a miscalculation of direction carried the plane in a great circle from Tampico into the interior, instead of flying in a direct line to Mexico City.

The lone eagle not only flew over Mexico's mountains and deserts in this first non-stop flight between the two capitals, but he flew straight into the hearts of the Mexican people—'hearts already long attuned in devotion to him by exploits of which they had read, hearts torn with fear for hours for his safety.

Appointed To Senate

Ottawa.—Hon. Philippe Paradis, a member of the Legislative Council of Quebec, has been appointed to the Senate in place of the late Senator Montplaisir of Three Rivers. He will resign his seat in the Quebec Upper House. Mr. Paradis' appointment has frequently been forecast. For many years he has been the chief liberal organizer of the Quebec District. He is prominent in the Quebec industry.

Air Mail For Mine Area

Ottawa.—Plans are under way in the post office department for the substitution this winter of a weekly air mail service for the present ten-day dog team mail, to serve Red Lake, Wapiti Lake, Wapiti River, and Narrows Lake in the mining area of Northern Ontario. Aviation companies have already been approached by the postal authorities, and it is expected that tenders will be let shortly.

W. N. U. 1712

Children Perish In Blaze

Many Die As Flames Sweep Through Orphanage in Quebec

Quebec City.—Fifty children, most of them orphans ranging in age from five to sixteen years, are feared to have been burned to death in a fire which swept suddenly and devastatingly through the Hospice Saint Charles here.

The Hospice Saint Charles, an orphanage conducted by the Nuns of the Good Shepherd, also housed many local children placed there by their families to receive their education, and the parents of these children, crazed by grief, flocked to the city morgue to reclaim their dead.

Five hundred children and forty nuns were in the four-story, stone-faced building when fire burst out in a dormitory on the second floor. It was believed to have originated in the basement and to have eaten its way to the second floor before discovery.

In a short time the entire building was a mass of flames and doomed to destruction. Efforts of firemen, policemen and the Nuns of the Good Shepherd who conducted an orphanage in the building were directed toward rescue work. A dreadful scene ensued.

Ladders were placed on every side of the building and firemen and policemen carried many children to safety in their arms.

Mingled with the roar of the flames were the terrible screams of the frightened and injured children and those trapped within the structure. Adding to the horror of the catastrophe were the grief-stricken groups of parents who awaited the removal of the children's bodies by the firemen.

Rescue workers made repeated trips at great personal danger into the interiors, saving as many children as possible before being driven forth by the flames.

Advance In Shoe Prices Is Predicted

Necessary To Meet Production Costs Says President Of Association

Montreal.—At the 31st annual meeting of the Shoe Manufacturers' Association of Canada, President P. H. J. Lanthier, Montreal, told the delegates that both the wholesale and retail trade would find it necessary to advance shoe prices again to meet the prevailing production costs.

While production has been large during the past year, competition has continued to be exceedingly keen and for the most part shoe profits have been small in relation to the number of pairs of shoes manufactured, said Mr. Lanthier. Imports from the United States and Great Britain showed a marked increase. During the last 12 months, 27 Canadian shoe manufacturing establishments have failed, arranged settlements with their creditors or discontinued business, the president reported.

Distinguished Soldier Dead

General Alderson Commanded First Canadian Division in Great War

London.—General Sir Edwin Alfred Herbert Alderson, K.C.B., commander of the First Canadian Division in the Great War and subsequently the Canadian Army Corps, died at Lowestoft, Dec. 14.

General Alderson gave splendid service throughout the Great War, in connection with his command of the Canadian Army Corps, he was mentioned in despatches and was created a Knight Commander of the Bath and Commander of the Legion of Honour.

He was A.D.C. to Queen Victoria and from 1900 to 1906 was A.D.C. to King Edward VII.

In the Great War General Alderson took command of the Canadian troops from their first arrival in England. Members of the first contingent well remember his reception of them at Plymouth on landing and later at subsequent inspections on Salisbury Plain and in France.

Selling Spring Spinach

St. Catherine, Ont.—Spinach sown this fall by vegetable growers in the Niagara peninsula for marketing purposes next spring, has developed so rapidly that growers have had to cut the crop and sell it. It is the first time on record that home grown field spinach in the Niagara fruit belt has been marketed in December.

Canada At Geneva

Dr. W. A. Riddell, who is acting for Canada in the preliminaries on Disarmament at Geneva.

Britain Paying War Debt

Heavy Payment Is Made To The United States

London.—A payment of \$92,575,000 was made Dec. 15th by the British Government to the United States Treasury, of which sum the amount of \$35,000,000 is in payment of the principal of the debt, the balance being interest.

With this payment, the total payments to the United States since the funding of the British debt amount to \$292,240,000, of which \$120,000,000 has been an account of principal. The amount outstanding has been reduced to \$4,459,000,000.

Athens Forming Senate

Athens.—A bill has been prepared for the creation of a senate which has not existed since 1932. It provides for 50 senators to be elected by the people. Twenty others will be chosen by commercial, professional, scientific and labor organizations, and 10 by the chamber of deputies. Senators must be 40 years old. Their term of office will be three years.

Work On Flin Flon Railway

The Pas, Man.—H. F. McLean and William Tomlinson, who have the contract for the construction of the new road to the Flin Flon mine, have arrived here and are making preparations to start work sooner than was expected. It is planned to lay steel on the ground up to Cranberry Lake, so as to enable contractors to rush in supplies. If this is decided on, 200 men will be needed.

New Calendar Proposal

Fixed Calendar Of 13 Months Is Under Consideration

Ottawa.—Proposals for a fixed calendar of 13 months, each of 28 days, were placed before the External Affairs Department by its author, Mr. B. C. Colwell, New York. Afterwards he saw some of the technical officers of the Government.

In October last the League of Nations called the different Governments which are party to the League, asking them to give its advisory committee on communications "all information of value to it on any action taken on the suggestions contained in the report of the committee of inquiry into the reform of the calendar and more particularly on the national proposal for committees of inquiry to study this reform." Steps are being taken to form such a committee here.

The international fixed calendar would provide for 13 months instead of 12, each month divided into four complete weeks beginning on Sunday and ending on Saturday. An extra month would be necessary and this would be inserted between June and July. Every month of the year, by this plan, would be identical in date and week day names. The last day of the year would be dated December 25th as an eighth day extra Sabbath ending of the last week. In leap year, "leap day" would be inserted as the mid-summer extra Sabbath and dated June 29th.

Gambler's Winnings Will Educate Youth

Texas Cattle Ranch Won In Poker Game Deeded To School

Fort Worth, Tex.—A cattle ranch won in a poker game now is contributing to the education of Texas youth.

The last legal formality has been completed by which ownership of the 6666 ranch is transferred to Texas Christian University of Fort Worth. Mrs. Burk Burnett, widow of the late Captain Burk Burnett, deeded the land to the school.

Captain Burnett named his ranch the 6666 in token of the poker hand of four sixes which brought him the property and elevated him from a cowboy to a cattle baron.

Pool Payment In March

Winnipeg.—No further Wheat Pool payments will be made until March. A. J. McPhail, Regina, president, announced here. The Canadian Wheat Pool Board met here, with members present from Saskatchewan and Alberta, and discussed routine business.

PUT A CHECK ON THE SOVIET MENACE IN CHINA

Shanghai.—Dispatches from Canton to various sources indicate that the death toll in the recent Nationalist coup, which were at first stated as probably not exceeding 1,000 will reach 5,000 at least.

Although Nationalist authority has been re-established, police headquarters has not yet been taken. Chinese Reds with a few Russians were maintaining a determined stand there.

Disorders continued, but were considerably lessened. Numerous incendiary fires were burning. An unknown number of Reds have been executed.

Japanese dispatches state that dead revealed countless dead bodies littering the streets. They also say the labor union headquarters were razed and innumerable shops looted. Those few that remained untouched were heavily barricaded. A thousand houses were burned, according to the Japanese dispatches.

While the danger to foreigners is believed to have passed, American naval authorities have given permission to the Chinese city to return to armed parties have been withdrawn from shore to their ships. A heavy concentration of foreigners of many nationalities remains in the foreign section.

With the sudden suppression of the disorders in Canton, Nationalist officials here were unanimous in their claim that there was no danger of a further Red uprising. Military officers declared the Nationalists are amply prepared to prevent a recurrence.

The Nanking Nationalists here launched a campaign against alleged Russian influence in Chinese affairs. Chiang Kai-Shek, head of the Nationalist Party, today reiterated a statement condemning the Soviets. He declared that "Soviet consulates throughout China have been serving as hotbeds of Communist propaganda, necessitating immediate severance of diplomatic relations between China and Moscow. Communism is bound to cause the breakdown of the Chinese revolution. Some time ago I recommended that the Kuomintang (Nationalist Party) break off relations. If action had been taken then the Canton disaster probably never would have happened."

Chiang Kai-Shek repeated a statement that the Kuomintang executive committee had instructed Foreign Minister C. C. Wu to inaugurate moves looking toward severance of relations, but that the minister had not had time to carry out his instructions.

Will Be Ready In Time

No Delay In Completion Of Flin Flon Rail Line

Montreal.—Sir Henry Thornton, asked as to the Flin Flon development in Manitoba, said the railway would be completed in "ample time to meet mineral developments in that district."

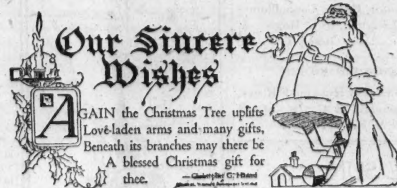

Speaking of conditions in Mexico, where he has just visited, Sir Henry stressed the need of tranquility to give time to make the country prosperous, promote education, and put the railways in a sound financial position.

The Curse Of Tipping

Vancouver.—"Tipping is the curse of the catering business from the waiters' point of view," said P. R. Baine, Vancouver, before a session of the minimum wage board. Waiters in one of the city's largest hotels have not received more than \$1.20 per day in wages at any time within the past 20 years, said G. Coleman. They are compelled to get a living wage by studying the possibilities of their customers and means of extracting money from them in tips.

Smothered In Grain

Fort William, Ont.—Joseph Bononaki, 25, father of five children, was smothered to death in a bin of the Grand Trunk Pacific elevator here today. Bononaki was engaged in evening grain at the bottom of the bin and it is believed that as he reached the bottom the grain slid, covering and smothering him.

Prize Swine Raisers of the West

Raising hogs that can compete with the best produced in the West is the specialty of these four young men who were winners in Juvenile Swine Competitions in the prairie provinces this year. The competitions, which have become an annual event through the west, are conducted by the Canadian Pacific Railway in order to stimulate the young farmers in prize livestock raising. The young men are, from left

to right: Ivan Graham and William Pitt of Kenton, Manitoba; and Thomas Cumming and James Clark of Kenmore, Saskatchewan. They were photographed in Toronto while attending the Royal Agricultural Winter Fair as guests of the Canadian Pacific. They were many interesting and instructive days in that city, taking in the live stock fair, the Zoo, stock yards, packing plants, theatres and other city sights.

West Indies Cruise of Recaptured Adventure

THE MONTROYAL
Four hundred years of strife with
piracy and rioting are encom-
passed in the history of the islands
of the Spanish Main. For all these
bright islands are monuments of
the days of conquest of explorers
and pirates. The West Indies mirror
the world in miniature or the way
of the world, and one sees them
today lying peaceful under tropical
sides.

A modern voyage of re-discovery
is no longer a matter of years or even
months as it is emphasized by the
schedule of the proposed cruises to
this region of romance by the
Canadian Pacific liner Montroyal
which sails from New York on Janu-
ary 26 and February 29, each re-
turning in 29 days.

Judging by the popularity of
these cruises, the West Indies are
still as tempting as they were to
Columbus. Ponce de Leon, Drake,
Cortez, Hawkins and a hundred
others. Although there remain
today no pirates, no rich galleons
to sack, few buried treasures to seek,
there still remains the bracing air on

silver seas, the beauties of coral
islands, and of tropical life and many
evidences of a historic past. Even
in the matter of buried treasure
everyone would like to surmise the
world as did Louis George Williams
who found amid some old ruins of
Panama last year, by means of a
violet ray detecting instrument, a
treasure worth \$50,000. This mass
of gold and jewels was unearthed
on the site of San Jose Church
which was destroyed in 1671 by
pirates under Sir Henry Morgan.
Every spot on the west Indies
cruises offers living testimony of a
connection with the Old World.
There is Cuba, the beautiful island,

Capt. H. B. BROWN, R.N.A.
once the pride of Spain; Jamaica,
headquarters in the old days of
famous pirates; Panama, the former
highway of Spanish treasure trains
and now a name of the world's
greatest canal; Colombia, strong-
hold of Hispaniola; Curacao, a
little bit of Holland in the Carib-
bean; Porto Rico, where Columbus
rested and whence Ponce de Leon
set forth to find the Fountain of
Youth; Nassau, in the Bahamas,
with its coral formations and sea
gardens and Bermuda, the "Isle of
the Blessed". Such names as these
recall exciting days of the past and
furnish highlights in a voyage of
recaptured adventure.

JUDICIAL SALE OF FARM PRO- PERTY.

There will be offered for sale by
Public Auction by W. M. Washburn
at the Postoffice in Stony Plain, Al-
berta, on SATURDAY, the 8th day
of DECEMBER, 1927, at 2 p.m., of
the afternoon the following lands:
S.W. 1/4 & N.W. 1/4, Q. 7, both in
Tp. 52 R. 1 W. 5th Mer. reserving
mines and minerals in the S.W. Q. 7,
and in the N.W. Q. 7, and the N.E. Q. 12 and S.E. Q. 13
both in Tp. 52 R. 2 W. 5th M.,
excepting out of the N.E. Q. 12
46-100 acres and 3-27-100 acres for
roads and reserving mines and min-
erals and out of the S.E. Q. 13 re-
serving coal 602 acres more or less.
The property will be offered for sale
at an upset price of \$14,450.00. The
Vendor is informed of the following
particulars: The property is about
10 miles southwest of Stony Plain
and about 3 miles from the nearest
school. About 289 acres are under
cultivation, there is a well, and the
land is fenced with 2 and 3 wires.
There are the following buildings:
1-1-2 storey house 20 x 30, log boarded
up, single roof; log granary 24 x 32
shingle roof; home stable 22 x 22;
cow stable 22 x 22; hen house 10 x 24.

Terms—The purchaser will pay
down at the time of sale ten per cent
of the purchase price. The vendor's
solicitor and the balance into Court
within 60 days of the date of sale
without interest, or in the alternative
10 per cent cash as aforesaid and the
execution of a mortgage for \$6000.00
for five years, with interest at 7 per
cent per annum, and the remainder
of the purchase price to be paid into
Court within 60 days from the date
of sale without interest.

In other respects the terms and
conditions of sale will be the standing
conditions of sale of the Supreme
Court of Alberta, as approved by the
Master.

For further particulars apply to
F. W. Landy, Barrister, Stony Plain,
Alberta.

Dated at Edmonton, Alberta, this
25th day of November, 1927.

"H. P. WALLACE,"
C. S. O.

Approved,
A. Y. B.
M. G.

Here and There

Work on the erection of the Mine
Basin Pulp and Paper Company's
plant at Hantsport has begun, to-
gether with work on the railway
aiding in getting the plant well on
the main line of the Dominion At-
lantic Railway.

The value of the Western Cana-
dian grain yield this year is figured
at \$1,000,000,000 by a financial firm
making a survey of conditions at
Winnipeg. Wheat is put at \$28.84,
\$24.72; oats at \$16.62; barley at
\$22.87; rye at \$16.62; flax at \$16.35. Hay and
other grains are included in the
grand total.

The Eastern International Dog
Sled Derby will be held this year
at Quebec City, February 20, 21 and
22, according to information given
out by the tourist department of the
Canadian Pacific Railway Company.
The leading drivers from all parts
of the Continent will take part.
The race is over a 120-mile course
with an average of 40 miles a day.

Montana farmers are hauling
grain to stations on the Canadian
Pacific Railway lines just north of
the International boundary line in
South-western Saskatchewan. Some
50,000 bushels are on the move there
on sale to the Wheat Pool. It is
remarkable that the Montana farm-
ers are paying the duty and "freight"
about \$7 per load more than if
delivered to the elevators located
along the Montana route.

"The tourist crop is the next best
crop to that of wheat in the Cana-
dian West," said C. E. Foster, pas-
senger traffic manager of the Cana-
dian Pacific Railway, visiting Win-
nipeg recently. "Canadians are now
capitalizing our splendid winters."
he said. "It used to be our custom
to decry them, but have since
learned their appeal to the stranger
as well as ourselves and are profit-
ing by it."

Quebec City is preparing for a
record winter sports season, accord-
ing to Jack Stratheide, newly ap-
pointed winter sports director at
Chateau Frontenac. Mr. Stratheide
comes to his new field of activity
with a wealth of experience having
promoted outdoor sports in the Mus-
koka Lakes region and more recently
at the French River Bungalow
Camps of the Canadian Pacific
Railway.

Saskatchewan heads the provinces
of Canada in growth of revenue
from tourist traffic, according to
the Dominion Bureau of Statistics,
dealing with the calendar year 1926.
The gain over the previous year was
over 100 per cent, while Manitoba
was the only other province with a
revenue increase of more than 25
per cent. The tourist business for
the whole of Canada has risen from
\$53,783,760 in 1925 to \$103,643,400
last year. It is thought to contrib-
ute \$100,000,000 to Canada's favor-
able balance of trade.

Of Canada's four great sources
of wealth—field, forest, mine and
stream—the forest has steadily
pushed forward until it now holds
second place, particularly in the
exports from the Dominion. For the
12 months ended September 30th
last, grain and grain products im-
ported were valued at \$464,000,000;
timber and forest products at
\$169,000,000, a which shows it
added, to show the whole export
value of the forest, manufacture
and unmanufactured wood valued at
\$160,000,000, making the forest a
aggregate \$229,000,000.

AUCTION SALE OF TIMBER PERTH COVERING DOMIN- ION LANDS.

THE RIGHT to cut timber under li-
cense on Berth No. 4176, comprising
the following lands in the Province
of Alberta, will be offered for sale at
public auction, at 2 o'clock P.M. on Thurs-
day, the 5th day of January next,
at the office of the Agent of Dominion
Lands at Edmonton:

Timber Berth No. 4176, situate in
the Province of Alberta, comprising
the South East quarter of Section
8, West half of Section 9, and South
half of Section 16, in Township 52,
Range 13, West of the Fifth Meridian,
containing an area of 1.25 square
miles, more or less.

The conditions of payment, rate of
rental, royalty, etc., are contained in
the Timber Regulations, a copy of
which may be secured on application
to the undersigned or to the Agent of
Dominion Lands at Edmonton.

G. P. PEREIRA,

27—Ingea Councillors meet in Stony Plain.

The Sun Letter-Box.

The Editor does not hold himself responsible for opinions expressed in this column.

EDITOR SUN: Dear Sir, As I understand there is a discussion on at the present time regarding the lighting of the streets, I crave a few lines' space in your journal to voice my opinion. Since the evenings have lengthened, this season, the said lights seem to have been run on the hit-or-miss system. For instance, it has been some time since a street light has been noticed shining on Main street north of the Royal Hotel.

After the lights had come on again after the 20-minute close down on Thursday, the 15th, there were but three lights lit on Main street, the light at Wudel's corner being out the nights of Dec. 15th, 16th and 19th.

As one cheerful chap remarked: "When everyone is up at the skating rink, the streets don't need to be lit." Well, even so: if we're not to have the lights, why should we be asked to pay for 'em? Thanking you for the space, I remain, yours. TAXPAYER.

A Promise More Than Kept.

When the publishers of the Family Herald and Weekly Star of Montreal two years ago announced that the owner of the paper wished them to reduce the subscription price from two dollars to one dollar a year, they promised that not a single feature of the paper would be eliminated, but new features would be added, and the paper made more valuable than ever. It is frankly admitted by their million readers that their promise has been more than fulfilled, and today The Family Herald and Weekly Star at one dollar a year is the marvel of the newspaper world. No home in Canada would regret this investment. Just think of a great big 72 page publication at less than two cents per week, and every page of it alone worth the money. No wonder the Family Herald and Weekly Star has over a million readers. It deserves them all, and more too.

Stony Plain and District.

The local liverymen had a busy time Monday morning taking the passengers to the City who had been disappointed thru the non arrival of the Jasper train.

On Sunday evening next, Dec. 25, 7:30 p.m., a Christmas song service by the children and congregation will be held in the United Church. Everybody welcome.

Post-box at Hardwick's Store, for the kiddies' letters to Santa.

The concert given Tuesday evening at Glory Hills school reflected great credit on the young people who took part and the teachers who taught them.

A Christmas entertainment will be held at Warden school this evening, Dec. 22d, at 8 p.m.; everybody welcome.

Santa Claus has a Post-box at Hardwick's Store, for letters from the kiddies.

The next dance at Holborn will be given by the U. F. on the evening of Friday, Dec. 30th.

The school concert at Muir Lake takes place tomorrow evening (Friday) Dec. 23.

Hardwick's Post-box, for the kiddies' letters to Santa Claus.

M. M. Mecklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Friday, January 6th. See him and see well.

Spruce Grove News

While motoring from the City on Monday morning, Mr. R. Stoker pulled his car to one side of the road near Winterburn Community hall, on seeing a car approaching from the west at what he considered to be a pretty good speed. The latter car, on reaching Mr. Stoker's vehicle, swerved and struck it, bending the front axle and tearing off the fender. The attacking car was badly damaged, and later was towed to Stony by a crew from Sommerfeld & Mayer's Garage.

Duffield Doings.

Owing to the delay in getting a roof on the curling shed, the opening of the curling season has been postponed again.

There was great rejoicing when the heated car arrived the other day with the Xmas cheer and fruit.

On Sunday morning a train load of wheat cars had seventeen of its cars derailed, a few miles from town. Four of the cars were salvaged intact. Big gangs were engaged in clearing the track.

The license inspector gave the local hotel building the once-over last week.

Mr. Stoker has secured the contract for plastering Mr. Coates' new residence, south of town.

The roads hereabouts are practically all closed for auto traffic.

Beauty Parlor.

Marcelling and Hair Cutting done at M. Leeder's residence. While motoring from the Every Day.

Bessie Leeder.

Mike Says:

People who think February the shortest month didn't buy many Christmas presents.

Christmas is when we buy presents for other people, and New Years when we make resolutions for ourselves. Wouldn't it be glorious if we could buy presents for ourselves and make resolutions for other people?
